Additional information provided by Director Lemke

Question RP: for some of the older culverts, if its still functional does it stay or does it have a life cycle? Lemke: no age is not the full decider. We will be playing catch up for some time because some have seen excessive deuteriation.

Question RP: is our master plan leading us to asset management for stormwater?

Lemke: yes, we have data coming in as a result of the plan, the next phase will be getting the tools together to try and get ahead.

Question TT: what is the rest of the process, you present it and solicit feedback before you move on projects?

Response provided by Director Lemke

Question TT: the plan is done but Arcadius will stay on through 2024 to help discuss the implementation or help continue the draft?

Lemke: a little of both, now we need to drill down and map out the shovel work necessary. You will see multiple phases

Question TT: I want us to continue to focus on green infrastructure, will we be able to identify those bio swells and other infrastructure

Lemke: I agree and we have asked Arcadius to look for more green solutions

Question LCJ: Wil there be cost associated with the phases?

Response provided by Director Lemke

-TT: motion to approve
